

AUGUSTA CENTER FOR HEALTH &
REHABILITATION

LOVE SHINES THROUGH

During these challenging times, there is indeed a ray of sunshine that is shining through with the use of technology.

At Augusta Center, we are keeping our residents connected with their families through social media. We make phone calls, yes, but we have also contacted each family and set up Apple FaceTime calls.

Laughter,
tears &
beautiful
memories

Judy and Laura in Activities connected our residents and their families to FaceTime, and the magic began.

Laughter, tears, and beautiful memories have formed. Residents are in awe, and families adapted to a new, wonderful way to say, "Hello." Every interaction has touched our staff. [Even when one of our residents caught her grandchild smoking.]

We will get through this COVID-19 pandemic, and when we do, we will join together with family gatherings and activities. Until then, we will push forward as a family with love, compassion, kindness, service, and excellence. Now more than any other time, our mission is clear and meaningful.

We are here for our residents and families and continue to work diligently to protect our residents and decrease the risk of this virus entering the facility. Daily, we screen every staff member that enters our building in guidance with the Centers for Disease Control and Prevention (CDC).

We are all in this together, and together we will make the best of whatever we need to do. Through many years we have become a family and community that stands together in good times and difficult ones.

Thank you to all our families for your support and understanding. Please let us know if there is anything else we can do to assist you in any way.
